200 MICRON	30	50

- **AZUD HELIX DISC FILTERS**
- Unique hydrocyclone action that keeps contaminants in suspension away from the discs, reducing the need for frequent cleaning.
- **AZUD DISC FILTERS**
- The 3D characteristics of disc filters provide exceptionally high standard of Filtration security to protect against downstream contamination.
- **AZUD SCREEN FILTERS**
- Filter screens are fabricated from marine-grade stainless steel, providing long service life. Easily cleaned screens provide affordable alternative to disposable filter cartridges.
- **AZUD HELIX AUTOMATIC DISC FILTERS**
- Extra large filtration surface area. Fully serviceable backwash bypass filter.
- Large range of AC/DC automatic controller options.
