NOTES:

1. Filter life depends on filter type, usage and water conditions.
2. If the water has multiple problems, 2 specific cartridges can be plumbed in, using two housings – consult your Kleen-Plus dealer for further advice.
3. The cartridge selection chart can be used reliably where your water quality problem is known and/or identified and consistent.
4. If in doubt about the water quality, consult your Kleen-Plus dealer for further advice.
