

Kleen-Plus[®]

NITRATE REMOVAL SYSTEM APP74 (UNDERSINK/SINGLE TAP)

This system comes with all parts essential to installation. Easy to install, the 3 component system ensures pure healthy water for households with Nitrate problems. The water flows past a specially designed Nitrate removal cartridge, then through a 0.5 micron carbon block cartridge to remove bad tastes, odours, other harmful chemicals, plus giardia and cryptosporidium. Finally, water flows up through a dedicated tap on the benchtop.

RE-ORDER NUMBER APP74
