

THE CWS (Cabinet Water Softener) WATER CONDITIONING SYSTEM

| SPECIFICATIONS | | | |
|-----------------------------|-----|------|------|
| SPEC | 618 | 735 | 1035 |
| Continuous flow (lpm) | 20 | 20 | 40 |
| Peak Flow (lpm) | 30 | 30 | 60 |
| Capacity m ³ (1) | 4 | 8 | 20 |
| Backwash (lpm) | 6 | 6 | 6 |
| Overall Height (mm) | 710 | 1150 | |
| Cabinet Width (mm) | 320 | 320 | |
| Cabinet Depth (mm) | 530 | 530 | |
| Min. Pressure (bar) | 1.5 | 1.5 | |
| Max. Pressure (bar) | 8.0 | 8.0 | |

(1) Capacity based on water with hardness of 100ppm

FEATURES

- ELECTRONIC DEMAND REGENERATION CONTROL** (specify when ordering)
Initiates regeneration only when needed. This means savings in excess of 50% of the salt and 45% of the water used for regeneration
- SUPERIOR EFFICIENT DESIGN**
One-piece Noryl body for maximum strength and least potential for leakage
- FEWER PARTS**
Valve incorporates absolute minimum number of sealing members to ensure reliable, troublefree performance and has fewer parts than any other control of comparable function
- LARGEST UNRESTRICTED FLOW RATES**
Of any control of comparable design
- THE MOST ADVANCED ELECTRONIC DESIGN TIMER**
Electronic timer that is programmable to adjust to the demands of all the water systems and user needs
- QUALITY CONSTRUCTION**
Durable construction resists rust and deterioration. High capacity resin beds are full and consistent in size, reducing pressure loss.

BENEFITS

- Conditioned water prevents soap curds, leaving clothes brighter, cleaner, and softer. Fabrics last longer and less detergent is necessary
- Conditioned water is free from contaminants that may affect the taste of drinking water. It also prevents spots on your dishes, glassware and silverware
- Conditioned water will prevent heavy deposits and films on bath, tub, shower door, and tile surfaces
 - Saves on Soaps
 - Saves on Detergents
 - Saves on Energy bills
 - Saves on costly appliance repairs
